

Dear Congressman or Woman,

As an Active Registered Voter, I am upset at a economic entitiy trying to use underhanded lobbying to reduce the value of the paid service that I subscribe to. As the National Association of Broadcaster's constituitants do not provide me with programming that I feel it worth listening to, I choose with my voting dollars to pay for a subscription service that provides me with a legal, and bennificail service. As a buisness owner myself, the idea of lobbying to prevent me to fairly compete in the marketplace is an absurd and ridiculous concept that I will go to the ballot box to prevent from happening. I strongly urge you to vote against the NAB's petition 04-160, as this is an issue that I consider worth swaying my vote one way or another.

Thank you for your time and consideration.

Sincerely,

Ted Wilson
